- Familiarity with **Git** and **GitHub** for version control and knowledge of agile development methodologies.

## EXPERIENCE:

Full Stack Developer Intern | Jspider Basavanagudi Bangalore

(Jan'23)

- Worked on the development of a web application using **MERN Stack** (MongoDB, Express, React, Node.js)
- Assisted in the implementation of responsive design using **Tailwind, Bootstrap** and media queries.
- Development of RESTful APIs for user authentication and data management.
- Participated in daily mocks and code reviews.

Freelance Developer

(Mar'22 - Dec '22)

- Developed custom websites and web applications for clients using the **MERN stack**.
- Collaborated with clients to gather requirements and deliver projects on time and within budget.

## PROJECTS:

LMS - Library Management System

[Project URL : github.com/shoaibabdulkhadeer/LMS](https://github.com/shoaibabdulkhadeer/LMS)

- Developed a library management system using **React and Node.js**, improving access to the library's collection for users and streamlining workflows for staff.
- Utilized React to create a responsive, user-friendly interface for searching, reserving, and checking out books from the library's collection.

Crypto WebApp - APIs based Crypto WebApp

[Project Hosted Netlify : cryptozen1.netlify.app](https://cryptozen1.netlify.app)

- Developed a responsive web application using React to manage and visualize data from a Coingecko API.
- Utilized React hooks and state management to dynamically display Crypto data for different Crypto Coins.
- Developed a search feature using React that improved user experience and reduced search time by **50%**.

## CERTIFICATIONS:

- **MERN Stack Development** from **JSpiders** | 2023
- **Web Development** from **Udemy** | Aug 2022
